INSIDE THE WORLD OF FAN FICTION

Imagine what would have happened if Harry Potter had married Hermione Granger, or if Luke Skywalker had never met Obi-Wan Kenobi - or had turned evil, as Darth Vader had wanted him to. Or, if Thor had joined forces with Luke and Leia. Nothing is impossible in the world of fan fiction - imaginary stories with famous characters, written by amateur writers. While it is not as popular as gaming online or Snapchat, it has quite a number of fans who have created millions of stories and posted them on the Internet.

Reading fan fiction may be quite a lonely activity, but the world of fanfic involves making and maintaining relationships - writers like to share their work, follow other writers and talk about their work. Part of the fun of writing fanfic is belonging to a community that develops around certain subjects, plots or characters. Not all the comments are supportive and friendly, however – the feedback can be quite critical, or even cruel. On the other hand, critical comments can make you a better writer. After all, authors such as Neil Gaiman (*The Sandman*) and Meg Cabot (*The Princess Diaries*) have admitted to writing fan fiction.
