### 5 Revision

My street is very lively and it's never boring. My neighbour Paul always listens to music in his car. He usually drives with his music very loud and he stops his car in front of my house and opens his door! Another neighbour is a pianist and he plays the piano every morning and every afternoon. My father can't stand it! He works at home and he hates working with noise. My friends come to my house and we play basketball in the street. Our neighbours don't like it. They say the ball is annoying and they can't stand the noise. I suppose my neighbours simply don't understand sport.
