SOUVENIRS

Student A

souvenir /,su:və'niə(r)/

You buy a souvenir when you are on holiday.
It is your gift from this holiday for your friends
or family.

You can also keep the souvenir yourself
to remember the holiday.

This key ring is my souvenir from Mexico.

Where is this souvenir?

The hippo from Kenya.

The elephant from India.

The doll from Poland.

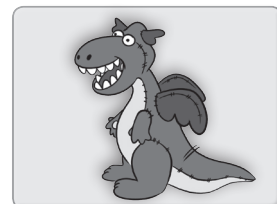

The doll from Russia.

The cat from Japan.

EXAMPLE

Where is this souvenir?

The dragon from Poland.

Student A: Where is the dragon from Poland?

Student B: The **Polish** souvenir is between the Swedish souvenir and the English souvenir.

Cosmic maths

Read the text and do the puzzle.

All the planets go around the Sun, but some planets take longer than others. This means that a year on Earth is shorter or longer than on different planets. For example, in one year on Earth, Mercury goes round the Sun 4 times. In one year on Earth, a person on Earth has one birthday. But a person on Mercury would have four birthdays! Yes, if you're 10 years old on Earth, you're 40 years old on Mercury! Mars takes 2 years to go round the Sun. And Jupiter takes 12 years to go round the Sun.

COSMIC MATHS PUZZLE

Laura lives on Earth. She is 12 years old.

- 1 How old is Laura on Mercury? _____
- 2 How old is Laura on Mars? _____
- 3 How old is Laura on Jupiter? _____
