2 *Avengers: Endgame* (superhero film)

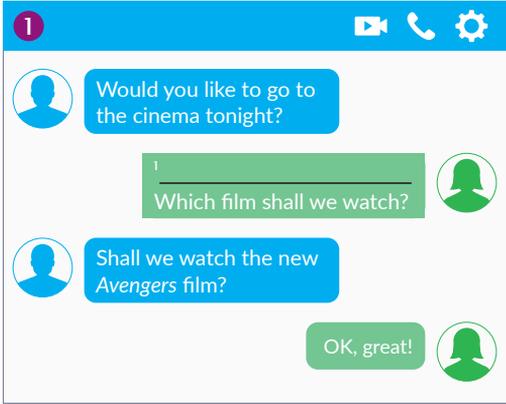

Avengers: Endgame is about a team of superheroes (called 'the Avengers') **who** must save the universe from disaster. The film is based on characters from the Marvel comics, such as Iron Man and Thor. The film is set in different places, including New York **where** the Avengers try to get back the magic Stones. The action happens in different years because the Avengers travel back in time.

This film has an excellent cast. There are a lot of lead actors, including Robert Downey Jr., **who** stars as Iron Man, and Scarlett Johansson, **who** plays the role of Black Widow. She's my favourite character – she's a spy **who's** also an athlete, a gymnast and a martial arts expert. *Avengers: Endgame* is ideal for people **who** like action films, especially those **who** enjoyed the other Avengers films. It's quite long but you never get bored, and there are some scenes **which** will really surprise you. I definitely recommend this film!

HOLLYWOOD AND BOLLYWOOD

Hollywood, in Los Angeles in the USA, became the centre of the world's film industry in 1913. The film studios chose Hollywood because they could shoot films

outside all year – it's always sunny there! At first, Hollywood films **didn't use to have** sound (the so-called 'silent films'). The first 'talkie' came out in 1927. The 1930s and 1940s were Hollywood's 'Golden Age', with actors and actresses like Cary Grant and Greta Garbo. Later, in the 1970s, the 'Blockbuster Age' began, with exciting sci-fi and action films like *Star Wars* and *Jaws*. Hollywood **used to be** the biggest film industry in the world, but now it only makes about 500 films a year. The average budget for a blockbuster is about \$65 million, but the most expensive film, *Pirates of the Caribbean: On Stranger Tides*, cost \$378.5 million!

India's film industry is called Bollywood, from the words 'Bombay' (which **used to be** the name for the city of Mumbai) and 'Hollywood'. Bollywood also

started more than a century ago, and now it makes about 1,000 films a year – more than Hollywood! The plot in a Bollywood film is usually based on a love story or an adventure. There are often amazing costumes and fantastic soundtracks. The average budget is \$1 million, but the sci-fi action film *2.0* cost \$76 million because it's got amazing special effects with CGI technology.
