Skyscraper farms

For centuries the residents of big cities 1.1..... food produced in rural areas far away from urban areas. However, as some scientists argue, this situation will need to change when fuel 1.2..... so expensive that it will be economically and environmentally pointless to transport huge amounts of food into the cities.

One way to feed the growing populations in cities might be so-called vertical farms. The phrase 'vertical farming' first 1.3..... in a book by Gilbert Ellis Bailey in 1915, although it had a different meaning at that time. Since then, the concept of building skyscraper farms in or near cities has been developed by some environmentalists, who point out a number of advantages. Firstly, it will be possible to 1.4..... places of natural beauty from becoming areas of farmland. Furthermore, controlled farming conditions will mean that we 1.5..... food all year round, without much need to use chemicals such as pesticides. It is believed that vertical farming is one of the most likely solutions to the issue of feeding large cities in the near future.
