## Is this a house? Really?!

On the Mexican island Mujeres, there is a *Conch Shed House*. People say it is the Seashell House. The house is very *creative* and original. It is completely white and looks like two snail shells. In front of the house, in a garden, there is a small swimming pool. Inside the house, there are two bedrooms, two bathrooms, and a kitchen. There is also a small balcony. This house is *modern* and comfortable.

Is it an elf's house? No, it isn't. It is the *Stone House*, or the *Stone Castle*, in Portugal. This house is between four giant stones. There are only five windows, a door, and a stone roof. Inside the house, there is a *fireplace*. Believe it or not, but in front of the house there is a swimming pool!

The *Forest Spiral* is a building in Germany. On the roof, there are a lot of plants, so people call the building a "forest". There are also three small round towers on the roof. There are 105 apartments and a big garage. There are 1000 windows and all of them are *unique* – no two windows are the same! This house is big and *comfortable*.
