Connected or addicted?

1 Underline the regular verbs in the Present Simple form in the text below. Which verbs are in the third person plural and which are in the third person singular?

GEN Y SMARTPHONE ADDICTS

'Gen Y' or Generation Y refers to young people between 18 and 30 years old. Cisco publishes an annual report on technology use in the world – the Cisco Connected World Technology Report. Part of this report looks at how Gen Y people use their smartphones in 18 different countries. Many Gen Y people are smartphone addicts.

Sally-Anne is a smartphone addict. This means:

- She checks for emails, texts or social media updates every 30 minutes.
- She looks at her smartphone as part of her early morning routine. She gets up – then checks her smartphone and gets dressed – then checks her smartphone and eats breakfast – then checks her smartphone.
- She takes her smartphone to bed.
- She doesn't leave her smartphone behind when she goes into the bathroom.
- She sends text messages while driving.
- She regularly uses smartphone apps in her daily life.
- Does the smartphone addict enjoy life? Perhaps not – two out of five users say they feel anxious without a smartphone to check.

As a typical Gen Y smartphone addict, Sally-Anne

- She (b) _____ a lot of time with her friends online.
- She (c) _____ photos and videos to share or store.
- She also has a Twitter account and she (d) _____ at least once a day. She (e) _____ online and she

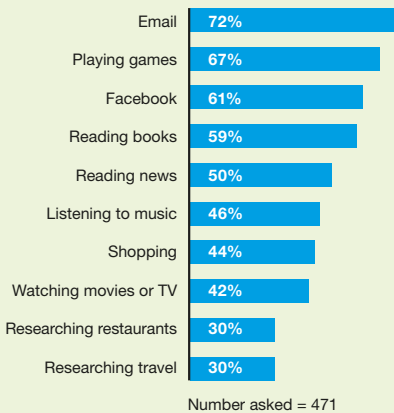

(f) _____ her email address with websites to get discounts and receive information, but she doesn't

(g) _____ Internet sites to keep her data safe.

Finally, at work she doesn't (h) _____ rules about using company computers for personal activities.

For which of the following do you typically use a tablet/smartphone?

■ Tablet owners
■ Smartphone owners

6 Now ask your partner similar questions to 5 using *Do you ...?*

Smartphones and tablets

1 Look at the graphs on the left and answer the questions.

- a** Do you use a smartphone or tablet for work, pleasure or both?
- b** Which activities in the graphs do you do with your phone or tablet?
- c** Which activities don't you do? Why?
- d** Does your phone or tablet have any apps or features that you don't use? Why?

2 Work with a partner. Ask and answer the questions in 1.

3 Read the statements. Do you agree? Discuss them with a partner.

- a** A tablet is a nice thing to have but not useful at work.
- b** It is possible to use a tablet for most things.
- c** You need a big screen for working on long documents.
- d** It's difficult to type long documents on a touch screen.
- e** Recharging a laptop is a problem when you travel.

4 Read two entries from a technology blog at the bottom of the page. Which of the writers agrees with each statement in 3?

5 Complete the sentences with words in **bold** from the blog.

- a** Heavy luggage is a problem when you travel, so I make sure my bags are _____.
- b** I have a very _____ mobile phone; it doesn't have apps.
- c** It's not important to me to look _____ – I just want technology that works well.
- d** My office has _____ space, so we can't have big meetings there.
- e** The IT department is very _____ – they fix computer problems quickly.
- f** I need a very _____ computer because I use special software for my work.

6 Are the sentences in 3 true for you?

1 Why I want a tablet

A tablet fills the gap between a laptop and a smartphone. Tablets are **light** and easy to carry around. It feels **comfortable** to hold a web page in your hands and on a tablet you can see the whole page, not just a mobile site on the small screen of a smartphone. Tablets are **fantastic** as e-readers for the same reason. A tablet is **ready** when you need it, but a laptop is slow to start and gets hot on your lap.

At work, a tablet is good for **basic** things like checking emails. Tablets are **perfect** for watching movies or playing games when you're **bored** on a business trip.

The battery on a tablet lasts all day, but a laptop battery needs recharging if you are away from your desk for a few hours. That's why I want a tablet.

2 Tablet? Not for me!

I have a smartphone and a laptop, so do I really need a tablet? The screen on a tablet is too small for working on long documents. Also, it's not **efficient** to type a long text on a touch keyboard. Another problem is that tablets have a **limited** memory for storing documents. A laptop does most of the things a desktop PC does, but a tablet is not very **powerful**, so you can't use programs like Photoshop.

A tablet is easy to carry – but it doesn't fit in your pocket like a smartphone, so you need another bag. A tablet is **cool** and nice to have, but it doesn't replace a laptop or a smartphone. It's just one more piece of equipment to carry around.
